One the eve of the most impressive broadcast that even he has ever made Winston Churchill went to Manchester and Liverpool. The Premier's more half-hearted followers allege that many parts of the country have been uneasy about recent events. Winston saw no evidence of it. In the ruined Free Trade Hall, where the ~~Prime Minister~~ ~~Minister~~ has often spoken himself, memories of famous soldiers-of liberty inspire us today to fight till liberty is saved. Mr. ForreSTALL, U.S. Naval Department, and Mr. Harriman, Lend-Lease expert, were in the party.....

British Paramount News has never believed that the people are uneasy. The best men are realistic; neither the gloomy nor the yes-men are any use to Britain in these stern times.

(CU LOOKING WRECKAGE) The Prime Minister told the people that we shall soon give it them back threefold.

At Cammel Laird's the Premier saw shipbuilding going full speed ahead - but no films allowed. Great Britain has a Prime Minister who inspires the whole free world. He warns us that hard months lie ahead. This man we follow till the work is done.
