Title: All The King's Horses.

Tracks: Forlorn River...What Goes On In My Heart..Xmas In July.

Lines: Stagg....Voice: Mellor.

Princess Juliana, who's living with her children in Canada, has been rejoined by Prince Bernhard, on short leave from the Dutch forces. Paying a four-day visit to the United States they were the guests of Mrs. Jefferson Coolidge, well-known American political hostess.

-----  
Agreeing to meet the Press the Royal couple expressed admiration for Britain and faith in victory.

-----  
Four airplane propellers raise the wind at the U.S. Army Gliding School. They create an air-current which just lifts the glider off the ground, while the novice gets the knack with no risk of being the star attraction at a military funeral.

-----  
When the pilots know how to control them the gliders are towed up for a real flight. To the nose is fixed a long cable, which is driven by a fast winch. In a matter of seconds the motorless craft is airborne and the flight starts.

-----  
Moving a lever the pilot releases the cable, which parachutes down. The Germans used gliders at Crete, and before the war's over this type of craft may have an important part to play.

-----  
Uniforms for U.S. women defence workers are by leading dress designers. They're evidence that girls are taking their part in America too.

-----  
An air-raid warden ? A nurse-probationer. A Utility apron. A nursing-sister. Another air-raid warden. A Canteen dress. My cup of tea.

New London, Connecticut! The powerful Harvard varsity eight rows against Yale, continuing a tradition-studded series. Due to the defense program big spectator craft are not too numerous, but the crowds on shore give the two shells a rousing send-off! It's 7 P.M., on a misty Thames River, and rather bumpy going aboard the observation train -- from where our camera-man photographs Harvard leading Yale. The four-mile test is all-Crimson! They've already taken the Freshman and JV races. Now, rowing at 39 strokes Harvard wins by 3 lengths for its 4th straight clean sweep on the Thames!
