

Master RACE BITE DUST IN MOSCOW

See how the Germans came to Moscow. In 1941 Hitler was within 30 miles of capturing the ~~main~~ Soviet Capital. Now, what is there left of Hitler? Moscow people ^{inwardly} gloated over the 60,000 German prisoners, led by a few score generals and officers of high rank, who slouched, a dejected host, through the Red Square. ~~Mothers thought how narrowly their children escaped the Nazis.~~ What the Generals and other once jubilant followers of Hitler were thinking could be guessed. Here was a picture of mass-bestiality drinking the gall and wormwood of humiliation.

Fortunate indeed were the 60,000 to ~~have the protection~~ have the protection of the laws of war. Who could have wondered if the Russian people had rent them limb from limb. For the Red Army it was enough that Russian fighting men broke the back of Hitler's Germany. Punishment of the murderers who slew, pillaged and despoiled will come later on. This time the Germans are NOT going to escape.

For Moscow it was a kind of Lord Mayor's Show. And after the Lord Mayor's Show - decontamination.
