Theatre A no. 2123

Ops. 254

Date: 3.2.45

Footage: 200

On February 3rd, 1945, Lancasters of Bomber Command carried out an attack with 12,000 pounders on E-boats and other pens at Ymuiden and Massaluis.

The film shows the Lancasters flying out low-level across the sea and then climbing for the attack.

Direct hits are clearly seen on the shelters and one of the 12,000 pounders can be seen going all the way down. It is believed that E-boats which have been interfering with our shipping ~~have been~~ have been raised here.
