

SUICIDE BOMB SECRETS OUT.

Full details of the Kamikaze weapon are now known to the Allies. By good fortune the Americans captured a suicide bomb intact. It is jet-propelled. Pilots rocket up into the sub-stratosphere and then power-dive towards Allied men-o'-war. In the nose there is nearly a ton of H.E. Only by fighter interception and thick curtains of anti-aircraft have the Allied navies warded off disaster. Even so one in a hundred suicide bombers gets a direct hit.

By floating docks kept at sea in the Pacific war-zone the Allies can now do repairs on the spot. The largest battleships can be accommodated. In little over six months, nearly two hundred men-o'-war have been repaired and overhauled, in the fighting zone. To the dismay of ~~Japan the Allied Navies have kept up their strength~~ of Japan the damaged warships are ready for action again in a short time.

SUICIDE BOMB SECRETS OUT.

Full details of the Kamikaze weapon are now known to the Allies. By good fortune the Americans captured a suicide bomb intact. It is jet-propelled. Pilots rocket up into the sub-stratosphere and then power-dive towards Allied men-o'-war. In the nose there is nearly a ton of H.E. Only by fighter-interception and thick curtains of anti-aircraft have the Allied navies warded off disaster. <sup>Only</sup> ~~Even so~~ one in a hundred suicide bombers gets a direct hit.
