- 30. SV WING COMMANDER GEOFFREY COOPER LABOUR M.P. FOR MIDDLESBRO' speaks. SUPER WING COMMANDER G. COOPER. Central Hall Lon

Whilst building supplies are short controls are essential so that we can ensure fair share in all parts of the country.

51. SCU WING COMMANDER G. COOPER SPEAKS

However we need to build houses not big government departments. We need builders working on houses, not clerks filling up forms. Every form required must be simple and a real aid to action.

24.

32. ~~CU~~ ~~DITTO.~~

Until supplies are plentiful we must allocate materials to finish the houses started rather begin work on a large number that we haven't the materials to complete.

45. SV CAPT. MARPLES CONSERVATIVE M.P. FOR WALLASAY SPEAKS: SUPER CAPT. MARPLES

Builders cannot work with rhythm and concentration unless there is a smooth flow of materials constantly arriving at the site in the correct sequence. The government control the material therefore this is their responsibility and they should use all existing organisations who specialise in distribution. If they ignore them then they do so at their own peril.

37.

A.E.
Kmp.

46. ~~CU~~ ~~DITTO.~~

Two things then let the government ensure a smooth flow of materials and let them use every agency whether local authority or private enterprise to get the houses built that this country requires building.

3. CU. MR. P. PIRATIC COMMUNIST M.P. FOR ~~STEELY~~ SUPER MR. P. PIRATIN speaks
 The vision of homes for the people today is as important as our
 war needs therefore we must in addition to guarantee wages and
 conditions for the building workers, bring them into consultation,
 give them an opportunity of displaying their responsibility, their
 initiative and thus gain pride in the work they do in that way ~~we~~
 we will get the houses we need. 46.
