SV. We have had a few days to consider what I told the Country last week. I used grave words but I have always trusted the people.

4 [We are in a difficult position but we can and we will win through.]

SCU. The way is long and there are no short cuts, only hard work can help us. ~~Let~~ me explain to you shortly how we got into this position.

[We alone of all the nations went through the two great wars - we are still alone. For that fight we put in everything we had; we sacrificed all our wealth overseas; we converted all our industries. That is why we are left in this position to-day.]

SCU We cannot put all this right in a few days but we have in effect done better than anyone could have imagined, but we have been hit by causes beyond our control. [I knew it would take time to get on our feet again, that was why we bought time by borrowing from America and Canada. But that time has proved too short.]

3 [FCU In the long run the only way out is by greater output of all the things that we need, and that means harder work.] This is our fight, we are all in it, and we will win through.

5 [Repeat. This is our fight, we are all in it, and by a united effort we shall win through.]
