## Roll. 2.

Several N.S. stripping ~~skins~~ salmon of eggs.

Several hazy scenics of Loch Quoich.

Several L.S. of dam building.

Shots of River Garry,

L.S. of fish trap.

N.S. do. do.

Shots of hatcheries.

These scenics are intended for introducing subject. Much of this landscape will be covered with the new level of the loch and the diversion of the water, completely ruining the salmon spawning ground and as this is ~~the~~ one of the main areas supplying the salmon industry of the North east coast it has become important for the Hydro-electric Board to take compensating action, and as a result of the fish trap and hatchery, not only will the stock be maintained but considerably increased.

See attached notes.
