

Wreckage picked up 12 miles out was taken to Elba,

Personal belongings and the 15 bodies so far recovered were most particularly examined. Investigation has

taken a more dramatic turn since sabotage has been considered a possibility. Among the luggage was Chester

30 Wilmott's. The famous author and journalist was one of the

35 killed when the Comet crashed into the sea. Comet

wings being fatigued—tested at Farnborough Royal Aircraft Establishment are subjected to treatment by hydrolic

rams. One minute of this produces as much strain as one hour's flying. Just how much work metal can stand without breaking is determined by the test.
