The most important ski-jumping contest of this year was held at Bischofshofen Austria. The best jumpers from seven nations were present to compete for the title. On three previous occasions on other jumping hills it was made clear that the finnish team this year is in such excellent condition that it will be almost impossible to beat them.

But also the norwegians had their surprise. Thorbjörn Ruste a slender 7 footer jumped last week 79meters at Innsbruck.

Austria who has excellent jumpers among them BRADL the former world champion also has big hopes to score among the first.

After a fierce battle scored THORBJÖRN RUSTE first with a tremendous jump of 92 (!) meters, thereby breaking all previous records.  
 Second **HEIMO SILVONEN** Finland with 89 meters.  
 Third **EINO KIRJONEN** Finland 85 meters  
 Fourth **SEPP BRADL** Austria 85 meters

For identification please observe the startnumbers on chest and back of jumpers:
