

AMERICAN STATES AID COSTA RICA

Exhibit One in Costa Rica is two dud bombs, dropped near  
the Parliament building. Two officers interrogated  
prisoners taken near the Nicaragua Border. Not the sort  
of lads you'd like to meet on a dark night. Rifles and  
ammunition have been captured too. In fact the rebellion's  
about petered out. Dr. Quintanillas met other members  
of the ~~investigation~~ *fact finding* committee flown in by the Organisa-  
tion of American States. They came from Mexico, Ecuador,  
Brazil, Uruguay, and of course the United States itself.  
The rebellion has been sound and fury signifying little.  
Would that all wars were like that.
