

## HOUND IS TOP DOG AT BERLIN ZOO

A dachshund that's grown up in the zoo at Berlin doesn't give

~~name~~ two hoots for the whole wild-animal kingdom. As <sup>who's</sup>

soon as he starts chasing ~~them~~ they know ~~whom~~ master. *- He's got 'em in his paw!*

Penguins can't understand why the jungle-gentry

~~are all~~ are all <sup>scared of</sup> the little

dog. The animals are very lucky if they can get away

without having their dinner taken from them.

The monkey's safe behind bars, but the poor young lions

have no protection at all.

Queer world, isn't it?
