

RUSSIANS SEE VISCOUNTS IN PRODUCTION

At Hurn, where Vickers-Armstrong make the Viscount Airliner the Russian Minister for Aircraft Industry was the guest of the Company. Eight colleagues and two interpreters were in the party. The Viscount is the only turbo-prop airliner actually in operation, as it has been for three years ^{about} / 140 have been delivered to airlines. In ~~the~~ America both the Capital and Continental companies are large buyers. So are Canada and Australia. Other orders have come from India, Pakistan, South Africa, the West Indies and the famous Dutch K. L.M. company.
