SCENE NUMBER

COMPLETE DESCRIPTION OF SCENES

After two days waiting at Famagusta for the French soldiers to arrive, a French cargo ship arrived late last night with soldiers and lot of their staff, lorries, jibs, petrol reffills for the aircrafts, etc. this lot arrived at the moment were not more that 300 soldiers, but are the first to arrive owing that the previous lot were all airforce people.

Covered are two rolls of ~~100~~ 100 feet each but No. 2 roll are the same shots as No. 1. with the only different are from another angle.

Roll. 1. Shots of the troops in the lorries waiting for their transport to the camp. long shots of the lining of the lorries which are in the area of the docks which can be understandable owing to the long barbed-wire fences along the harbour area. other shots of the soldiers in the lorries smoking, and drinking soft drinks while waiting. next are shots of transport lorries coming off the harbour with staff... other shots are from the large area of the parking place for the transports both the French and the British equipments, left are the French ones and right are the British.. long lines of those transports are ready to move, and shots while leaving.. next at the main gate of the docks showing lorries carrying British guns at the back and are taken to the camps in the Island. several shots of them while coming off harbour, and other shots while leaving.

As you can see from the long waiting at Famagusta, we have not been informed again by the Public relations office for their arrival as well as we were not permitted to enter the docks, and this causes us most of troubles and difficult coverage.
