WRESTLING.

Nowadays all-in wrestling has lost a lot of its ferocity and it  
 seems to be the object of the contestants to treat the crowd to an  
 acrobatic display. This is how Walloschke and Gomis fought out the  
 European Championships. Much the same thing happens at the New York  
 Harvest Moon Ball. The only difference is that the dancing looks a bit  
 rough. It's a funny thing when you come to think of it that dancing  
 used to be taught to young ladies to improve their carriage and deportment  
 The only thing you could learn from this is how to fall <sup>off a bus.</sup> ~~over a cliff.~~
