ST BERNARD'S.

St Nernard Dogs, famous for their kindly disposition and haughty expression, obliged our cameraman with a demonstration of how they rescue people lost in the Alps. But they couldn't get the cameraman really interested because as it was only a demonstration they didn't carry the little flash of cognac that makes them such a welcome sight.

RUSHMORE MEMORIAL.

America is setting up on Mount Rushmore a monument to Thomas Jefferson, George Washington, Abraham Lincoln and Theodore Roosevelt. Dedicated by Franklin D. Roosevelt --- here will be four great Presidents --- or should I have said five?

SPANISH REVOLUTI N.

On the road from Lisbon to Seville our cameraman secured these pictures of Spanish insurgents going into occupation of the city of Huelva --- continuing their steady advance which has even brought them to San Sebastian. At the headquarters in Seville General de Llano was interviewed, while General Franco. leader of the uprising, spoke fervently for the microphone --- but unfortunatel in Spanish.
