

U.S. VETERANS.

289

Veterans of the World War now in Middle age paraded in Cleveland in a remembrance procession, ^{which included legionnaires dressed as Indians} while veterans of the American Civil War ^{themselves} carried ~~their flags~~ proudly through the streets of Washington. Seventy years ago they were strapping young soldiers --- ~~this is the American Legion of the Wars that are now history.~~

SULTAN OF SELANGOR.

A picturesque visitor to our shores --- the Sultan of Selangor who arrived with ^{his wife} ~~one of his wives~~ and several of his children. Our distinguished guest who is over seventy, has come here for medical treatment.

MODEL PLANE.

A new aviation testing plant --- designed to check rolling resistance and to find the best type of plane construction to prevent rolling. The currents of wind in the tunnel are controlled by the experts who observe the behaviour of the plane, and work out the best method of making it behave better.

CORONATION HORSES.

The famous Windsor Greys, used by British Royalty on State occasions, have left Windsor for their new home in the mews at ~~the~~ Buckingham Palace. These are the horses whose duty it will be to draw the King's coach in the forthcoming Coronation. ~~XXXXXXXXXX~~ Even in these days of universal cars, that is a ceremony at which the horse will really come into its own again.

AIR RACE AFTERMATH.

Congratulations to Flying Officer Clouston --- who finished second in the air race to Johannesburg --- and sympathy to plane No.
