PAM BARTON.

The Queen Mary docking at Southampton brought home a young girl of whom Britain is justly proud --- Pam Barton, winner of the American Women's Championship at the tender age of nineteen. How are you feeling, Miss Barton? And this is how she did it, playing on the Summit course in New Jersey against Mrs Laura Crews, The young British girl has made herself very popular in the States and the gallery of Americans didn't even groan when she started holing out *long putts* chip shots. Against the greater experience of the older American player she showed amazing steadiness, and never seemed to be nervous throughout the game. She played like a veteran, and at the fifteenth Pam Barton sank the putt that gave her the match, the title and a large cup. Well done, Miss Barton!
