

Leaving Pembroke Docks Flying Boats of No. 230 Squadron started on a great flight to the Far East Base at Singapore. Powerfully built warships of the air --- mounting guard over that far-flung Empire. / Compare the land plane --- the new Westland co-operation craft designed and built and flown in the same year --- with low landing speed, and maximum flying speed faster than any other in the service. /

FIACRES? ETC.

Memories kindle at this Paris procession --- it is a parade of the ~~last~~ five remaining cabs on their last outing before being taken off the road. / Can you picture the romance that has blossomed in these ancient vehicles --- you know what I mean --- he knows. Kiss papa! / Kiss papa! That was yesterday's travel --- this is to-days when father bids farewell to his child and goes on a six-day bicycle race. Nowadays we're all for speed. / And speed is the keynote in Australia --- a new streamlined train at Mt. Lofty is out for new records. / For those who prefer the open road here's a new streamlined car, shaped like a tear-drop. The driver sits in the middle so nobody knows which way he's going --- not even the driver. / It isn't so very new after all --- people have been doing this for years. / But for a merry-go-round there's nothing to equal the woolly west. Madison Square Garden's sixth annual Rodeo shows you mad cowboys on madder bronchos. /
