

BOATS CARS AND TRAIN.

302

On trial at Southampton --- a parade of new Power Boats built to act as tenders to seaplanes. In a speed and formation test our cameraman shows you the steadiness of these little boats in a choppy sea.

A novel speed record on the Frankfurt - Darmstadt road. Carraciola the famous racing motorist in a car pitted against a plane. The plane won, but the car broke four records.

And a new record for trains --- established by the L.M.S. Express No. 703 between London and Glasgow. Proving once again that British railways are the world's best --- 703 made the 401-mile journey in less than six hours --- an average of ~~nearly~~ 70 miles an hour.
