

JULIANA.

312

Holland — Excitement ~~in Holland~~ is working up to fever pitch as the time for the Royal Wedding draws near. One essential part of the ceremony performed at the Hague was the registration --- and Princess Juliana went with her fiancée Prince Bernard to the Town Hall where they signed their names. Every appearance they make in public now is the signal for wild enthusiasm.

PLANE ON CAR.

Extremes met at the All-American Air Show. This Wright pusher plane first took the air in 1911 and it can still take the air. Aviation has come a long way since then ----- and here's the latest track --- taking off from the top of a car. Once in the air he does ^{on purpose} all the breath-taking stunts ~~or purpose~~ that the old planes did because they couldn't help it.

GOLF AT MIAMI.

Ten thousand dollars prize money took the golf cracks South. They included Gene Sarazen ----- Horton Smith ----- and Ralph Guldahl. Four days of expert golf gave the galleries something to think about in the winter evenings --- especially as these Americans never seem to miss a putt. Ralph Guldahl was the winner with 283 -- not quite a record for the course, but good enough to earn the prize money; and that's all the Income Tax people care about.
