

GIRL MOTORCYCLISTS%

328

The latest transport fad in Miami --- motor cycling --- and if these Florida girls ever ~~were~~ ^{were} anything but a bathing costume ~~think~~ ^{would} they suffocate. These machines can do 120 miles to the gallon, but who cares what the machines can do? One girl got stopped by a traffic cop who took her name and address, and telephone number. Here's another way of getting about --- In Henson Park, New South Wales they built a special speedway for kiddies. Everybody's pleased --- the children/~~get~~ ^{race} together --- the motorists have their own roads clear, and mother can go off with ~~a clear~~ ^{an easy} conscience and get into mischief on her own. Ice Hockey is the fastest game on earth and skating's pretty rapid. Anyhow, you sit down quikly. When you get ~~go~~ ^{and} good you can move your feet any time you like, ~~but~~ skating is a lovely opportunity to show off to the girl friend. Sit down! N.Y.

And now a ski-jump meeting that will gove you thrills a-plenty. This time of year everybody is winter-sporting except us --- but here's a picture that equals any you've ever seen. Watch with the eyes of a slow motion camera, as the bird men leap scores of feet throughk space --- fascinatin --- fantastic --- seen like this they are supermen.
