

Welcome home to Jessie Matthews and Sonnie Hale. Thanks to the holiday cruise we are glad to say our Jessie is fully restored to good health --- She has put on ~~weight~~ weight and she's all set to take it off again with another spot of work on those wonderful fluttering feet. Taking stars ~~away~~ away --- the Queen Mary has resumed sailing after structural repairs --- among celebrities on board were the American Table Tennis Team, ~~concluding a successful visit~~ --- and the famous boy violinist Grisha Gobuloff --- and Miss Florence Desmond. And now back home --- Gracie Fields. Mr Fuller is Britain's chief Mickey Mouse and in this ceremony he made Gracie the chief Minnie Mouse. Now let's hear from Evelyn Dall, the fifty pound a-week crooner ~~who had salary trouble~~.

ICE - HOCKEY.

Great Britain ~~2~~ wearing dark jerseys --- met Hungary in the world ice-hockey championship and the big crowd that saw the match witnessed a sparkling display of the game at its best. By the end of the second period Britain had scored two goals. It was in the last period that the brilliance of the home side came into its own. Flashing passes --- clever footwork and amazing control of the puck ~~gave~~ gave them a winning lead. There was no doubt about their superiority and but for magnificent work in the visitors goal the score must have been even higher. As it was, Britain won by 7 goals to nil.
