

CAR RACE.

330

Pau --- the fifth annual Grand Prix was won by the Frenchman Wimille. He covered the $138\frac{1}{2}$ miles in two hours 41 minutes 15 seconds. Rain fell during the race, but there were no casualties.

MARDI GRAS

New Orleans --- Down South in Louisiana everybody's happy because it's the festival of Mardi Gras. The flood is rolling down old man river and the Mississippi is crowding in --- but it's carnival time in New Orleans, and who cares about a flood?

SEALION.

In Australia as everywhere else, the best way to get a sea-lion to perform is to throw fish --- ~~and~~ Here's one who would even tackle the Grand National if they had enough herrings. To prove it wasn't a fluke we'll make him do it again --- and after that, like all good sea-lions, he'll go back for his after-dinner nap.
