MR BALDWIN.

Ministers arrived at No. 10 Downing Street for Mr Baldwin's last Cabinet Meeting as ~~Prime Minister~~ premier. Mr Ramsay MacDonald is also retiring. We look back on Mr Baldwin's career --- his great money gift to the government and his handling of the General Strike and the Financial Crisis ~~also~~ also his tactful work in the difficult days of the abdication of King Edward. And we may safely say that the name of Stanley Baldwin will occupy an important chapter in the history books of our children's children.

PARIS EXPOSITION.

~~Paris Exposition~~ Paris --- the International Exposition was opened by M. Lebrun the French President, in company with many well-known statesmen such as M. Herriot and M. Blum the Premier. The magnificent buildings of the Exhibition can only be appreciated from afar, so they all took a trip up the Seine to have a look at ~~them~~ them.

CHICHIBU.

Hurlingham --- Prince and Princess Chichibu attended a Japanese Garden Party and Sports Meeting --- and the contrast of East and West was delightful. Among the attractions was a little lady who did a Japanese dance. But for those of a more hearty taste there was a Kendo match. Kendo is very popular in the Far east --- the farther the better. At the end they all bow, so you can't tell which one ~~has a broken neck~~ has a broken neck.

EMPIRE DAY FLYING.

Northolt --- the Royal Air Force had a dress rehearsal for Empire Air Day --- bombers and fighters taking off to perform their evolutions against a background of clouds.
