WINDSOR MARATHON.

Windsor --- there were over a hundred entries for the Windsor to London Marathon. The race starts in the private grounds of Windsor Castle, but in spite of that you'd never imagine that so many people would want to run over 26 miles on a hot day. The finish was at the White City, and A J Norris came sailing in as if it were easy. Some people look more distressed when they're running for a drink before closing time.

Some years ago many of those taking part collapsed from the heat, so those in charge decided to hold it earlier in the year. Unfortunately this year somebody decided to hold the heat-wave earlier.
