ALDERSHOT.

A mechanised army in miniature left in wretched weather conditions for a 500 miles tour visiting holiday resorts on the East Coast. This recruiting tour **wilkgive** will give holiday makers some idea of the progress that is being made to mechanise the whole army.

LONDON.

George Robey GAVE his views on "His Ideal Man". at a GROSVENOR HOUSE glunchem.

The long spell of dry weather ended with violent thunderstorms over London, accompanied by a deluge of rain. So sudden & heavy was the downpour in many parts that floods, several feet deep, soon disorganised traffic monget places where the worst damage was done were Hendon, Ealing & Acton. The torrents of water forced up woodblocks & manhole covers, & for a time, the best way home was to paddle or even wade! In some places the average rainfall for the month came down in less than hour, & not for 27 years has 102 million tons of rain fallen in one day over London.
