

Plane picker upper.

Aviations latest. A de-vice to pick up a passenger from the ground by a winch low-ered from the plane.

The inventor is about to d emonstrate the idea and rescue his assistant from a spot where no plane can land

The cable is lowered . On the end is a 150 pound sandbag and the zipper ready for the pickup. He spirals round to

earth. The marooned man grabs the zipper and holds tight

The winch starts to reel in its human freight.

it looks risky but someday it may prove a real lifesaver.

Apple dance.

Here is the latest craze from America. It is called the Big Apple Dance and is being demonstrated by dancing masters at their National convention. This dance originated in Dixie and combines various modern steps with the old fashioned square dance.

As a contrast watch the Native war dance of New Guinea . Wierd head dresses and beating drums provide a new thrill for wanderers from the MODERN world.

Concert parties.

The seaside towns of Britain still remain faithful to the good old Concert party. They play to large audiences who still
