

BADEN POWELL.

Quick
 The Llandaff Castle, about to leave the foggy shores of Britain, had as passenger Lord Baden Powell, who had a kindly thought for you before sailing for Rhodesia. And so from fog into sunshine ~~went~~ went this amazing veteran who never seems to grow any older.

SYDNEY AMBULANCE.

Slow
 The toll of the roads in peace is as heavy as ~~that~~ that of ~~war~~ many an air raid --- but Sydney has an ~~efficient~~ ambulance service which is probably the most efficient in the world. It is even equipped with two-way wireless, enabling the ambulance ~~men~~ men to get to the spot in record time. This is a case for the stretcher. ~~XXXXXXXX~~ You may notice that although they ~~laid~~ ^{lay} him on his face, by the time he gets into the ambulance he is on his back --- so it's just as well ~~it's~~ it's only a demonstration or we might think ~~he was two faced.~~ ^{the victim was trying to get away.}
