

ICE HOCKEY.

432

A procession of fourteen nations in the winter stadium in Prague.  
 Then --- the world's ice-hockey championship in which Great Britain  
 and the Empire have done so well. In this game Canadians played Austria  
 --- ~~and~~ Canadians won by a convincing margin. Here comes one of their  
 goals. Skating in Madison Square Garden, New York --- not so fast as  
 ice hockey, but just as tricky. It's Francis Le Maire doing his  
 Roman Candle novelty. And now --- the race for the silver skates  
 championship. Thirty-two laps --- and a total of two miles. All the  
 chief cities of America compete in this race --- and St Paul, Minnesota  
~~was~~ <sup>was</sup> the winner. To finish our section of sport on ice --- an ice-  
 yacht regatta, one of the most thrilling of all sports. Unlike ice-  
 hockey or skating when you stand up and do things --- at this game you  
 sit down and let things happen to you.
