

GRAND PRIX DE PARIS.

470

Auteuil --- the famous Paris Grand Prix is a horse race, but a good deal of the attention is taken up by Dame Fashion. As for the race itself --- it was a win for Nearco --- The English Derby winner ^{Bois Roussel} ran third --- so I now hand over to the French commentator.

CANOEES.

Isar --- on the busy canal a slalom race for canoes. If you travel this way you can see how the underworld lives. That isn't really part of the game, but it's fascinating and refreshing --- ~~funny, but it's clean.~~ It's funny, but it's clean.

Canoes

Isar - on the busy canal a slalom race for canoes. The object is to pass between the poles without touching them. One good way to pass between the poles without touching them is to pass out. That is not really part of the game, but it's fascinating & refreshing. It's funny, but it's clean.
