

VOLCANO.

White Island --- 36 miles from New Zealand this volcanic island has once again leapt into life. Those clouds of steam are deadly poison --- sulphur and chlorine --- but you can't poison our Roving Cameraman with or without ^{a gas mask.} ~~enclosed these gas masks.~~ Many years ago the island was mined for its sulphur deposits, but the volcano erupted and killed every man there.

ELEPHANTS.

St Louis ---- the home of ~~St Louis~~ Blues goes in for swing with the elephants' band.
