MEXICAN POLICE SHOOTING.

Mexican City Police have to be pretty handy with revolvers, and in this demonstration they show you that the local banditti have a very small chance if it comes to a duel. They never miss. And when a fellow-policeman is holding the target it's just as well they don't. The next trick is very difficult --- he has to blow the man's head off without hurting the cigar. Blimey, he's done it! ~~You don't have to believe that if you don't want to ---~~ *That camera's lying again!* ~~it was really only a joke on the part of the camera.~~

PRINCESS MARGARET ROSE.

Many happy returns to Princess Margaret Rose. The younger daughter of our King and Queen --- sister of Princess Elizabeth --- is eight years old, and we offer our good wishes with those of the Empire at this happy time. In the short years of her young life the little royal lady has endeared herself to the people among whom she moves so gaily, ~~and with such absence of self-consciousness.~~ Her latest activity is in the *Brownies* ~~Buckingham Palace~~ *Repecham Patrol* ~~troops of Brownies --- the Special Patrol --- and the little Princess shows herself already to be a handy member.~~ So once again --- Many Happy Returns to Princess Margaret Rose.
