

SHEFFIELD HOSPITAL RAG.

Students of Sheffield University collected in full force for their great hospital rag and boat race in aid of local charities. Everybody turned out into the streets for the procession and here it is making its way ~~past~~<sup>through</sup> the Town Hall Square. When the scene shifted to the River Don, several hardy teams braved an adventurous journey over the rapids, - but the craft they used looked anything but rapid. Eventually all teams finished somehow - but was it more by luck than <sup>by</sup> judgment?
