NEW CHESTERFIELD PLANT.

2

The Chesterfield Tube Coy have contributed ⁱⁿ ~~an~~ a notable ^{way} ~~addition~~ to British industry by the completion of a heavy tube-making plant, ~~In size and power it exceeds any other of a similar kind operating in the world.~~ ^{It} This new plant was declared open by the Rt Hon the Earl Stanhope, - First Lord of the Admiralty, who was received by Sir William Talbot, J.P., Chairman of the Company. The erection of this new piece of machinery will ensure that Great Britain becomes no longer dependent upon foreign sources for the manufacture and supply of heavy steel hollows. She will also have greater facilities for competing in the markets of the world.

LORD DERBY OPENS NEW BY-PASS.

Lord Derby, tireless as ever, arrived for the opening of a new by-pass between Southport and Liverpool. After he had cut the tape, this splendid new highway was declared open. To mark this auspicious event, Lord Derby planted a commemoration tree. Then a ride was taken over the new roadway which is 4 miles long with separate cycle track and pathway. It will greatly relieve the congestion of traffic between Lancashire's great seaport city, and its neighbouring popular seaside resort.
