EDEN IN AMERICA AND QUEEN MARY ARRIVALS.

All the distinguished people who visit New York meet Mayor La Guardia --- he got a black eye a few days later but that was nothing to do with Mr Eden, Britain's unofficial envoy next visited the World's Fair, with Mrs Eden. They inspected the British building in the city-under-construction and chatted with workmen.

The Queen Mary brought home from New York many ~~xxx~~ famous travellers --- Mr and Mrs Eden were among ~~them~~ those who returned to our snow-clad shores. And Ray Milland, the English actor who went to Hollywood after a short career in London, and found fame upon the screens of the world. *They call him the jungle lover, but this is more an Eskimo story* Another famous returning film-star was Anna Neagle --- and a star of still pictures was the artist Frank Salisbury. And Tamara Desni --- she gave our camera a saucy look and then went off ^{with} ~~in~~ the train.
