

ICE HOCKEY.

\$ 76

A clash of champions at Basle in Switzerland wound up the ice-hockey series for the world title --- America versus Canada. Americans are the team with ringed sleeves. ~~XXXXXXXXXX~~ Of the fastest game that humans play, this is a grand example of flashing speed by the wizards of the rink. Canada once again proved superior --- Uncle Sam's men were a brilliant team but the Maple leaf men were better. The result was a victory for Britain's Dominion by four goals to nil.

And another triumph for Britain on the ice. The world's figure skating championship was held in Prague --- and here is Miss Megan Taylor of Great Britain skating her way to victory. This little lady was also the winner last year; in the absence this year of her rival Cecilia Colledge she had no real opponent. So her grace and skill kept the crown of the ice-kingdom firmly on her brunette head.
