

TALLEST BUILDING.

Australia --- Sydney is building ~~the~~ a skyscraper which will be the tallest building in all the Commonwealth, and it's a man-size job. Let's hope they don't blow the dinner-whistle ~~now~~. For these men work at dizzy heights above a busy street --- building up into the sky to uncover the secrets of space. It's progress ; it's enough to make an undertaker's mouth water.

MRS CHAMBERLAIN.

Northwood --- Mrs Neville Chamberlain visited the Middlesex home for aged actresses, founded by Mr Alfred Denville M.P. in 1925. Many modern-day celebrities were present including Miss Diana Wynyard --- to chat with the great personalities of the days gone by.

U.S.FLEET.

New York --- United States warship "West Virginia" left Brooklyn Navy Yard to sail with the Pacific Fleet on orders from President Roosevelt. Steve Brodie jumped off Brooklyn Bridge for a bet, but our cameraman hangs on for dear life to film the giantess as she rides below. And so the Fleet's out --- out in the Pacific to stand guard over the world's peace on the side of democracy and toleration.
