Who wouldn't be a black sheep if one could be like this?

At the Zoo Pets' corner

Gaumont-British News had an ~~exclusive~~ interview with Lucy the lamb which ~~has been sent all the way from Ontario as a~~ present for the Royal Princesses from an 82 ~~year~~ year old

Minnie

~~widow. At the express wish of the Queen, Lucy was handed to the Childrens Corner at the Zoo, so that children from from all over all the world can share in this captivating~~

~~pet.~~ It looks as if Lucy will be a strong rival to Ming.

the Panda

But Ming won't pander to Lucy, no, not on your life. She prefers her ^{ice-cream &} sunshade on the first summer day we've had for over a month.

SMALLEST PONY. ✓

And here's the world's smallest pony. Vim, ~~seen with his mother today.~~ He wins the title hands down because he's 17 1/4 ins high, and that's only just over 4 hands. Born at Bodiam, he weighs 12 lbs. He ~~is about the size of a large lamb and his measurements are even smaller than those of the former record holder.~~ ^{the former record holder,} his mother who is only 29 ins high.

The owner of Vim ~~and his~~ is Lady Estelle Hope, aunt of Lord Lintithgow, Viceroy of India; Lady Hope is one of the biggest breeders of Shetland ponies in Britain. This faller is awfully fond of our ^{ponies} babies, but he hadn't reckoned ~~with~~ so much vim, it upset him terribly.
