

BLACK-OUT STROLL. ✓

615

Here's a new dance to beguile the long winter evenings. It's called the BLACK-OUT STROLL, and Gaumont-British News cameramen paid a special visit to <sup>a</sup> ~~the Astoria~~ <sup>then</sup> dance hall to watch the experts <sup>an</sup> giving a ~~amusement~~ demonstration. Watch this exciting novelty dance when almost anything can happen. See the rank and file hard at it. The great idea is to change partners in the Black-out. But don't be so silly as to run into the wife. So away with dull care, and learn to do the ~~BLACK-OUT STROLL~~.

2000 HEAD OF CATTLE. ✓

*Latest dance -*

With the near approach of hard weather, the cattlemen of Texas round up their cattle to the Gulf coast grazing grounds to fatten them up for the winter market. 2000 head is the first load to be moved this year to the winter pasture on the Gulf of Mexico near Port Arthur, Texas. Over 90,000 head will probably be moved which is believed to be ~~amusement~~ the largest head of cattle concentrated in one area. It took this first head two days to move 60 miles.

*look all the way*
