

LEAGUE AND FINLAND.

621

The Council of the League of Nations at Geneva met to consider the appeal of gallant little Finland against the aggression of Soviet Russia. And upon the recommendation of the Committee the Council took action without parallel in the League's history. It expelled the Soviet Republic from its membership. The strong action of the League followed the uncivilised aerial bombardment of Helsinki --- of which we have already shown you the most vivid pictures. Helsinki to-day is a city of mourning, for many families. Death always follows in the wake of power politics. But the spirit of Finland is unbroken. Her President and her people celebrated Independence Day ^{in the midst of} despite their life-struggle for Independence --- ~~their determination to fight to the last for freedom and independence.~~
