SWEDISH PARLIAMENT AND DUTCH DEFENCES.

The lot of the small neutral is hard these days --- Sweden is being bullied by Soviet Russia and also by Nazi Germany. As the veteran King Gustav drove to the opening of Parliament with his grandson Prince Bertil, he looks forward to a session requiring the greatest tact.

Another neutral in the news is little Holland. Prince Bernhard, with officers of the Dutch army, has been inspecting new Army Defence guns and the general system of defence organized for the country's protection.

Once again Hitler has raised the invasion scare. ~~Well~~
~~the most millions have been spending on the frontiers of Belgium and~~
~~Holland. But there's something --~~ If Hitler wants to go to Holland, they've got just the place for him.
