AUSTRALIAN WAR EFFORT.

Sydney Agricultural Show is held this year as usual; but this year with a difference. It typifies the rural wealth of the great land of Australia; it displays the ~~great~~^{enormous} reserves of energy and strength that lie within that great Commonwealth. It shows to all the world the magnificent physique of the sons of this Empire. These are the men who helped to build this ~~great~~ Commonwealth of nations.

Sydney Show also has its purely thrilling side. Horses and riders take success and failure alike in their stride.

~~Stunt~~^{this} --- and watch/~~him~~^{he} heavy tumble at the water-jump. ~~She~~^{he} goes down but not out; ~~she~~^{he} just doesn't know when ~~she's~~^{she's} beaten, and ~~she~~^{he} ends up on top.

This year the world's greatest agriculture show has a warlike touch as well. Planes, bombs and military equipment are on view alongside the ploughshares ^{and} reaping machines.

South Australia ^{Adelaide} holds another show to raise funds for the Red Cross. Putting on a turn of speed in collecting money for Ambulances and Field Equipment.

Back to Sydney --- a thousand V.A.D's march through the city, and the salute is taken by Lady Wakehurst. Australia's womanhood lines up with the rest of the Empire.... the war machine every day is gathering momentum.

Back again to South Australia--- Adelaide says good-bye to men of the second Australian Imperial Force leaving for service overseas. Once again these great rangy men of city and back block and bush have answered the call to arms. In this fight for Freedom, Australia plays her part.
