IRONSIDE AND GAMELIN.

Signs of activity on the western front. General Ironside has been inspecting the new defence works in process of construction, ~~accompanied~~ and with him is the Commander in Chief, General Gamelin. Whatever happens in this theatre of war ~~that has been so quiet since~~ ~~1st September~~, the Allies are prepared.

QUEEN MARY.

Queen Mary came to London for a special matinee in aid of the Central Hospital Supply Service for London and the Greater London area. It was Her Majesty's first visit to a West End Theatre since the outbreak of war.

LORD WOOLTON.

First screen pictures of Lord Woolton since his appointment as Minister of Food. We welcome him to the exclusive company of public men who get filmed rather frequently. Lord Woolton was inspecting a new ~~mobile~~ mobile electric kitchen, which will give demonstrations round the country.

BONDI BEACH.

They've ~~be~~ been having a hot spell in Sydney..... and here are the crowds in holiday mood on famous Bondi Beach. Just because ~~there~~ there's a war on is no reason why we shouldn't relax now and again.
