FRENCH MOROCCO.

Outpost of the French Colonial Empire --- a stronghold of the ideals for which the Allies are fighting. In French Morocco the Sultan Sidi Mohammed goes to the Mosque for prayers. These are the ~~men~~ men who stand by France in the fight for Freedom ---- ~~the~~ the fearless swordsmen who will strike at German tyranny when the hour is ripe --- for they know what German rule would mean.

He maintains the tradition of the past --- but the Sultan bows to progress when he makes his first flight in a plane.

On the Western front, France is alert. Activity has increased on this great silent battlefield while Hitler toys with the notion of attack. He may be thinking of putting on a side show in France ~~in case he drops in~~ ~~take the~~ of Scandinavia. If he does, the Allies are ~~xx~~ ready.
