

GARDENS, PIGEONS AND TOWER. 676

The urgent need for increasing the production of food in homegardens for winter needs was emphasized at a meeting in the Gardens of the Zoo at Regent's Park. Various plans are under consideration, but the main point is that every available square foot of land should be made to produce food. On the same occasion a service of pigeon telegrams was instituted. Visitors were invited to send a message by carrier pigeon at the cost of a shilling, and the money went to the Red Cross. Going back to the Grow More Food Campaign --- this is how even the Moat at the Tower of London is going to it.

SCRAP IRON.

There's a new drive in the campaign to save scrap. It is essential that nothing should be wasted and the Minister of Supply wants everyone to know that nothing must be thrown away as useless. Particularly valuable is scrap iron. ~~But~~  
~~spaces are being pressed into service.~~ Soon we hope to be able to add the Italian Navy

DUCHESS OF KENT.

Everything this year indicated a record collection on Alexandra Rose Day. This is the cause which the Duchess of Kent has made her own --- the cause which was first sponsored by the Late Queen Alexandra. ~~Overseas~~ Overseas troops were among the millions who contributed this year. And one seller had the privilege of collecting from Mr Churchill.
