

MACHINE GUN (JOHNSON)

Melvin Johnson Junior has invented a new light machine gun and this is the first test outside the laboratory. The Johnson gun ^{would be} ~~be~~ carried by an infantryman like an ordinary rifle. It can be fired either as a machine gun or an automatic rifle or a single round at a time. As a machine gun it fires at the rate of 600 rounds a minute. It looks like the kind of weapon we could use over here.

TOMMY GUN.

Somewhere in Britain, a demonstration of the much-talked-of Tommy Gun. This is it --- the gangster gun; very suitable for a war against gangsters. It fires fifteen hundred rounds a minute. One type of magazine holds twenty rounds, another holds fifty. The gun is very light and can be fired from the hip or the shoulder

CZECH TROOPS ARRIVE.

Landing at a British port after the collapse of France --- Czech troops who continue the fight for freedom. These are the soldiers who have been pushed around ever since Hitler started aggression on the grand scale..... they have never wavered in their determination to fight the Nazi tyranny to the end. And in the fighting forces that Britain hurls against the Nazis there will be many legions of ^{such men as these} ~~these men of oppressed countries~~ ~~--- awaiting~~ ~~only the hour to strike and strike deep~~
