

GUNS FOR -SCRAP. ✓

688

A contribution to the scrap-heap --- old guns captured in the last war against Germany have been removed from a London Barracks to make more munitions. There is a poetic justice about this --- taking the relics of 1914 to make shells for 1940. But this time we must finish the job

BIG GUNS TESTED.

We've been hearing a lot lately about Germany's big guns, but we've got some too. These are some of the outsizes undergoing tests in Britain. ~~For the purpose of these tests they will be taken along railway lines, being careful, of course, to see there's nothing coming the other way.~~

HIGHLANDER. ✓

45/10
A little ship comes home to a British port with a record bag. The 1,000-ton cargo boat Highlander was attacked at sea by two German bombers. With only a single machine-gun for defence, the Highlander shot them both down --- one in the sea and one on the deck. Hero of the engagement was twenty-three-year-old George Anderson.
