

DUNKIRK NAVY .

You remember the story of the evacuation of Dunkirk, Nobody will ever forget it. ~~It has already taken its place among the proudest pages of the island's history.~~ A rearguard action that was ~~made~~ crowned with final success by the gallantry and devotion of hundreds of longshoremen --- the boatmen and the fleet of little boats that sail around the coasts of Britain. To-day the Brighton men and their boats have been given ~~the token of their~~ ^{proud} ~~their great achievement...~~ a plaque to put on the /bows of each little tub that shared in the glory of Dunkirk.... presented by Admirál Beamish.

Dunkirk was a defeat that was changed, not into victory, but to the foundation of victory..... because Britain still has intact the whole of the B.E.F..... An army saved from annihilation by the men who used to lure you from the beaches to sail round the lighthouse.

That is the spirit that rescued an army of 360,000 men to fight again in the Battle of To-morrow..... the Battle to avenge Dunkirk.
