ADVANCED TRAINING FOR HOME GUARD.

This is one of the training schools in Britain where Home Guard Officers and N.C.O's are learning to use the latest weapons --- the Browning Automatic Rifle and the Tommy Gun ~~which are coming over from the United States in increasing numbers.~~

~~There is also an interesting assortment of bombs,~~
Here's
~~starting with the well-known Mills Grenade.~~

Next is ~~the Thermo Flask~~ --- a percussion bomb which causes a lot of dissatisfaction when it goes off in a crowd of Nazis. And this is the new Sticky Bomb --- these are the first pictures to be released of ~~this and the Thermo Flask.~~ *these two bombs* Thrown at a tank, the ~~Sticky~~ Bomb stays put while it goes off.
